

# VISUAL SMART LOCK

## Features:

- **HD Camera** – Infrared Sensors & Auto Snapshot when detecting visitor coming.
- **Anti-Pry Alarm & Anti-Open Alarm** - When Incident Happen.
- **App Control** – Video Communication With Visitor and Send Temporary Unlock Code
- **Touch Screen Keypad** – The Touch Screen Keypad Has NO Mechanical Button Which Means NO Trace of your Secret PIN Code.
- **Low Power Consumption** – Unlock Your Door Up To 10,000 Times With 5,000 mAh Rechargeable Batteries. We Recommend The Batteries Are Charge Every 2 Months.
- **Fake PIN Code** – Prevent Others From Identifying Your PIN Code During Access, The Fake PIN Code Function Confuses The Onlookers But At The Same Time Allows You To Enter.
- **Low Batteries Warning** – When Batteries Reaches Critical Level, A Warning Light Will Come On Reminding You To Change The Batteries.
- **External Power Supply** – Either Use Key Or Power Bank (Supply Separately) In The Event Of Batteries Flat.
